

EKP Advisory cherishes two "Tax Hopefuls" in its team

EKP Advisory has a reason to celebrate! Two members of their team, Jakub Beran and Vojtěch Bouřil, are part of the first ever "Tax & Accounting Firm of the Year" competition. Both colleagues are already in the finals of the competition and are fighting for the title of "Tax Hope". The competition is organised by Wolters Kluwer, which this year for the first time merged two long-standing competitions - "Tax & Tax Firm of the Year" and "Accountant of the Year".

"For us, the competition is a form of recognition and appreciation of professionals who contribute to the field of tax and accounting with their innovations and creativity. Jakub and Vojtech are true professionals and we congratulate them very much. We are happy that two tax hopefuls are growing up with us," says Jan Kotala, Managing Director of EKP Advisory.

Both nominated members of the EKP Advisory team have, in addition to their conventional education, extensive experience abroad. Participation in this competition is thus another step forward for them to assess their abilities. You can support Jakub and Vojtech with your vote on the competition website until 10 January 2024 (<https://soutez.dauc.cz>). „We are proud of their work," adds Jan Kotala.
