

# 22. CzechInvest Services and Useful Contacts

The Investment and Business Development Agency CzechInvest is a state contributory organization subordinate to the Ministry of Industry and Trade of Czechia.

In arranging investments, CzechInvest focuses on key sectors of the Czech economy, both in the manufacturing industry (production) and in research, development and services (technology centers and business support services).

CzechInvest promotes Czechia abroad as a suitable destination for investments. It is the exclusive organization that may submit applications for investment incentives to the governing bodies. The agency also supports Czech firms that are interested in becoming involved in the supply chains of multinational companies. Through its services and development programs, CzechInvest contributes to the development of domestic firms, Czech and foreign investors and the business environment as a whole.

In 2022, the Investment and Business Development Agency CzechInvest celebrated its 30th anniversary. The value of investments arranged by the agency to date approaches more than CZK 1 trillion (41,835 million USD).

The mission of our representatives abroad is to be the first contact point for prospective investors as well as to actively seek new opportunities and spread the word about Czechia.

Up to this day, the agency is active in 7 territories.

## Regional Offices

In the same manner, CzechInvest has its branches in each of the 14 regions of Czechia. The advantage of those offices is their direct presence in the field.
