

Roma scholarship program

The scholarship program for Roma students of secondary schools, higher vocational schools and universities was established in 2016. The ROMEA organization supports Roma students with good academic results who, however, could not afford to study due to a poor financial and socio-economic situation, or their studies are at risk of social exclusion. Since 2016, a total of 525 scholarships have been awarded to a total of 251 students. We try to support some students repeatedly and guide them through the entire course. For hundreds of other students who could not get a scholarship, we supported contributions for tutoring or the purchase of school supplies.

Now the ROMEA organization has launched a new campaign called THANKS TO YOU WE HAVE A CHANCE!, in which Roma students can be supported at <https://romskastipendia.cz/darujte/>

You can donate at <https://www.romskastipendia.cz/darujte/> or by e-mail stefan.balog@romea.cz
